SUMMARY

- I am a web developer and currently a Final year software engineering student at Ho Chi Minh City University of Economics with a GPA of 3.0.
- I started learning how to code and how to create beautiful website UI/UX in 2021. Over the years, I have developed useful skills and knowledge about web development
- Hardworking, responsible, and competitive person. I look forward to meeting and working with all the amazing new people in the industry.

TECHNICAL SKILLS

Programming languages: JavaScript & TypeScript

Frameworks/Platforms:

- JavaScript Frameworks: ReactJs, NextJs
- Tailwind CSS, SASS for styling
- Redux toolkit, Zustand, React Context Api for state management
- Auth: Clerk, Oauth, Nextauth
- UI: Radix UI, Shaden UI, Bootstrap

Others:

- Using git for version control and code management
- Working with Figma designs
- Working with Rest Api
- Working with cloud platforms like Vercel, Netlify, and Firebase for hosting
- Working with serverless databases like PlanetScale, Firebase, SupaBase, MongoDB Realm and ORM tools like Prisma and Drizzle

EDUCATION

University of Economics Ho Chi Minh city (Viet Nam) 09/2021 - Present

- Studying **Software Engineer**
- Current **GPA 3.0/4.0**

PROFESSIONAL EXPERIENCE

TMA Solutions(Viet Nam) - Front End Engineer 10/2023 - Present

Project: T-OFFICE

- **Description:** a web application developed and utilized by TMA for the purpose of tracking things like locations, personnel, and appointments
- **Technologies:**
 - **Front-end:** ReactJs, Bootstrap, TypeScript, Redux toolkit
- **Responsibilities:**
 - Implement a few minor components (modal, table, popup, search and filter bar, etc.)

- Implement some functionalities (update employee department, update appointment).
- fix some minor bug

PET PROJECT

07/2023 - 09/2023

Project: Ecommerce dashboard (1 members, personal study project)

- **Description:** a web application that e-commerce store owners use to oversee and manage their inventory, sales, and customer purchases.
- **Technologies:**
 - **Front-end:** NextJs 13, ReactJs, Shadcn UI, Tailwind Css, TypeScript
 - **Back-end:** NextJs 13 App Router, Prisma Orm, PlanetScale MySQL Cloud Serverless server
- **Responsibilities:**
 - Completely build the website using the knowledge from all the coding classes.
 - Design website layout, UX/UI
 - Bring in a third-party Auth library(Clerk), designed middleware for all the api
 - Implement all functionalities (creating new product, new sale, new purchase , etc...)
 - Design database Schema, push and deploy to cloud server
- **Source:** github.com/viekoi/heicha-admin-demo
- **Demo:** heicha-admin-demo.vercel.app

06/2023 - 07/2023

Project: Music Share (1 members, personal study project)

- **Description:** a website that allows users to submit and listen to a variety of songs, either from their own or others
- **Technologies:**
 - **Front-end:** NextJs 13, ReactJs, Radix UI, Tailwind Css, TypeScript
 - **Back-end:** NextJs 13 App Router, SupaBase PostgreSQL Cloud Serverless server
- **Responsibilities:**
 - Completely build the website using the knowledge from all the coding classes.
 - Design website layout, UX/UI
 - Bring in a third-party Auth library(SupaBase)
 - Implement all functionalities (users can upload and manage their own song, listen to all songs on the website, etc...)
 - Design database Schema, push and deploy to cloud server
- **Source:** github.com/viekoi/MusicShare
- **Demo:** music-share-nu.vercel.app
